Head Office:

King Fahd bin Abdulaziz Road, Azizia – Fawaziyah Area, Al Abdulkarim Bldg., 2nd Floor, PO Box 31377, Al Khobar - Saudi Arabia 31952

Product Range

Analytical Instrumentation

- Lab Chemical's, Lab Reagents, Solvents, Glassware's, Lab wares & Plastic wares
- Liquid Chromatography: LC, LCMS, LC-MS/MS, Nano LC, U-HPLC and Consumables
- Gas Chromatography: GC, GCMS, GC-MS/MS and Customized GC's
- GC Sample Preparation (P&T apparatus) Special GC Detectors
- High Resolution Mass Spectrometry (HRMS): Isotope Ratio Mass Spectrometry (IRMS) & Life Science Mass Spectrometry (LSMS)
- Kits for Clinical Diagnostics; TDM & Bio Monitoring
- Ion Chromatography, Ion Exchange Analysis, & Electrochemistry, IC Combustion systems
- Molecular Spectroscopy: FTIR, FT-NIR, FT-FIR, Near IR, Dispersive Raman, FT Raman, GC-IR, TGA-IR, IR-Microscope
- UV / Vis and NMR Instruments
- Trace Elemental Spectroscopy: AA Spectrometers, ICP-OES, ICPMS and Speciation (GC- ICPMS, LC-ICPMS, IC-ICPMS)
- Bulk Spectroscopy: XRD, XRF, XRD/XRF, OES Spark Emission Analyzers, GDS Glow Discharge Spectrometers,
- Accelerated Solvent extractors, Auto SPE extractors, Rocket Evaporators
- Elemental Analysis: Carbon/Sulfur Analyzers, OHN , Carbon / Water & Hydrogen Analyzers, CHNS/O Analyzers (Organic/Inorganic); N/Protein Instruments, Isoperibol combustion Calorimeters, Ash / Fusion
- TN,TS, and TX Combustion Analyzers, Combustion IC Analyzers
- Laboratory & Process Density and Concentration Measurement
- Polarimetry, Rheometry, Refractometry and Viscometry
- Microwave Digestion and Synthesis
- Particle Size & Characterization
- Zeta Potential Material Optimization
- Small Angle X-Ray Scattering (SAXS/WAXS)
- Thermal Analysis: DSC/TGA/DTA, STA, TMA, DMA, DEA, EGA, ARC, HFM, LFA etc.
- Material Testing Instruments. Universal Testing Machines, Tensile, Compression, Flexure, Fatigue, Impact, Torsion and Hardness testing machines
- Polymer Testing Instruments
- Complete range of Hardness testing instruments Rockwell, Vickers, Brinell, Universal Hardness & Plastic Hardness for hardness properties of all types of steel, metals, alloys and plastics.
- Complete range of Labware, Apparatus & Utilities
- Water analysis complete portfolio, pH, Ion & Conductivity measurements, Titration Instruments
- TOC Analyzers
- Flow Chemistry Analyzers (Automated Chemistry Analyzers ACA)
- Automated Water quality Discreet Analyzers
- Nano Photometers, Micro-volume and Cuvette Spectroscopy for the non-destructive analysis of ultra-low volume samples on biological, chemical, and pharmaceutical labs in industry and research
- Automatic Titration systems (Potentiometric, KF Volumetric, Coulometric) – All kinds
- Electrodes (Lab & Process), Armatures
- Water Distilling Apparatus
- PH, DO, EC meters
- Capillary viscometers & Baths
- Kjeldahl Digestion / Distillation units (Manual, semi-automatic & fully automatic)
- Food, Feed & Flour testing Instruments
- Shelf life / Oxidation Stability testers
- Solvent extractors, Raw & Dietary Fiber Analyzers, FAT extractors
- Lab Pipettes, Lab Centrifuges
- COD / BOD analysis , Flocculators / Jar Testers
- Overhead Mixers / Stirrers, Magnetic stirrers, Vortex Mixers, Homogenizers, Circulating water Baths
- Water & Vacuum pumps, Peristaltic pumps
- Biomedical Freezers, Ultra-low temp Freezers, Refrigerators.
- Lab Ovens,Incubators, Furnaces Autoclaves & Sterilizers, CO2 Incubator's, Chillers, Re-circulators
- Life Science Products: Clinical Diagnostic & Biomedical Research Equipment
- PCR's, Flow Cytometry, UV Transilluminators
- Gel Documentation systems – Chemiluminescence & fluorescence gel/blot imaging systems.
- Cell Automation and Detection, Cellular Imaging and Analysis, Electrophoresis
- Glove Boxes; Workstations; Down flow Booths; Isolators & valves
- Lab furniture & case works; Lab utilities; Sinks; Cabinets ; Drawers, Bio Safety Cabinets
