PRODUCT RANGE

Material Testing

- Polymer process Laboratory
- Single screw laboratory extruder with blown film single and multiple layer, cast film , different down stream
- Twin screw Laboratory extruder, co rotating and counter rotating, Laboratory compounder
- Laboratory Mixer
- Laboratory press and two roll mill
- Micro injection molding machine, laboratory injection molding machine, two components injection molding machine, medical parts injection molding machine
- ISO molds, ASTM molds
- In line inspection systems for plastic films, non woven and glass
- Plastic film inspection , Haze , thickness, COF, Heat sealer
- Mooney viscometer , rubber process, Rheometer, hardness, specific gravity, Mixers, cutters. Weathering test equipment
- Pipe testing equipment, internal pressure for pipes, Burst for pipes, end closure, water baths, falling impact, ESCR, OIT
- Water vapor permeability, oxygen permeability instruments, head space analyzer

Lab Furniture

- Lab furniture & case works; Lab utilities; Sinks; Cabinets ; Drawers.
- GDS, Safety Cabinets, Chemical Cabinets, Fume Hoods

Oil and Gas

- Fully Automatic Cloud, Pour and Freeze Point Analyzers
- Fully Automatic Cloud, Pour and Freeze Point Analyzers with Auto Sampler.
- Pour Point, Cloud Point, Freeze Point for Lube and Fuel oil
- Flashpoint Testers:
- FUEL ANALYSIS
- Vapor Pressure Analyzers
- Petroleum Distillation unit
- Viscosity measuring instruments
- Asphaltting Flocculation
- Wax Appearance and Deposition
- Scale Formation
- Differential Scaling loop.
- Hydrate Formation
- Thermal Conductivity of Fluids
- Long Term Stability/ Stress Test
- Drag Reduction Evaluation
- H2S Content
- Multi-Shot pyrolysis EGA/PY-3030D (Micro Reactor use with GC/MS)
- Tandem μ -Reactor Rx-3050TR
- Ultra ALLOY capillary column

Informatics

Sample Manager

Sample Manager puts decision-making power where it belongs, in the hands of users who can make logical choices about workflow, instrument integration and data reporting for management metrics or regulatory requirements. Ideally, today's labs are not only paperless; they are powerful enterprise drivers for business transformation. A workflow driven LIMS delivers the agility necessary for today's businesses to transform as the regulatory or economic environment requires.

CISPRO

Maintain an accurate listing of all chemicals on site, reduce chemical

Industrial Technologies

- Pilot Plants
- Core Analysis Equipment
- High Pressure Metering Pumps
- Fluid Technology / PVT Systems
- Oil Well Cementing Equipment
- High Pressure / High Temperature Viscometer
- Rock Properties Measurement Systems
- Refinery Analyzers
- Micro Reactor Systems
- Teaching Equipment: Aerodynamics, Control Engineering, Sensors and Instrumentation, Electrical Power Systems, Fluid Mechanics Materials Testing and Properties, Structures, Theory of Machines, Thermodynamics and Heat Transfer, Renewable Energy, Technology and Science Kits
- Materials Testing: Universal Testing Machines, Impact, Fatigue and Polymer Testing Instruments

costs and manage risk more efficiently using the BIOVIA CISPro Chemical Inventory System.

BIOVIA Notebook

BIOVIA Notebook is the easiest to use and fastest to deploy electronic laboratory notebook (ELN) available today. Thousands of scientists in Chemicals, Pharmaceuticals, Food & Beverage, Oil & Gas, CPG, Academic, and organizations where chemistry and biology are important use the BIOVIA Notebook to document research, collaborate with colleagues, and help their organizations innovate and develop new products faster.
